Stone steps with blooming sunflowers Festival 2017

Supporting Kashimamiko Shrine in Ishinomaki-shi for rebuilding the main shrine Event

On March 11 2017. 6 years have passed since the Great East Japan Earthquake. Many people have come to the gate of Kashimamiko Shrine, in Hiyori mountain in Ishinomaki, and prayed for the deceased. Stone steps which connected this gate with Ishinomaki saved many lives when the great East Japan Earthquake happened.

Because of the earthquake, Kashimamiko Shrine's main shrine and office were damaged greatly and worshipers were made to live far away from the shrine. The shrine has been placed in difficult situation. Especially, main shrine, which was built 350 years ago, was broken down 4 years ago because of the danger of collapse. This event is held for thankfulness and to support the shrine, which helps us get rid of our fear or anxiety.

We are very grateful to Etsuko Shihomi, a flower activist, Mansaku Nomura, a kyogen performer of Mansaku-no-kai and CHUMS, a special support seller for supporting our event.

Offering flowers
to the shrine

flower activist

[Himawari Project 2017] by Etsuko Shihomi

Backer : Chiba JA Chosei

Etsuko Shihomi, flower activist, started [Sunflower 10,000 project] in 2016 and delivered sunflowers grown by participants to Shichigahama in Miyagi, town hall of Namie city in Fukushima and Kumamoto. In this year, we will sow sunflower's seeds near the stone steps in Kashimamiko Shrine with our guests in June 11 2017 and dedicate these flowers in August 11 2017.
